SIGNATURE of Facility Core Manager(s) [FOR KEEN HALL ACCESS ONLY]

Dr. Glenn Hicks
Genomics Core & Chemical Screening

Dr. David Carter
Microscopy Core

Dr. Songqin Pan
Proteomics Core

Genomics Building Residents Only:

FOB access to Lab _____ and Lobby doors, effective _____ (today's date) and ending September 30, 2018 (renewals are issued annually).

Additional FOB access to lab _____. Additional PI* approval _____ or approval sent via email genomics@ucr.edu.

Signatures **not needed for Lab 2237 or additional 3rd floor lab.

Additional key(s): _____
(if you know key #s, please indicate instead of rooms)

Office Use

PLEASE READ THE FOLLOWING CAREFULLY

Hours of Operation:

The Keen Hall Core Facility is managed by the Institute for Integrative Genome Biology (IIGB) and the Center for Plant Cell Biology (CEPCEB); and the Genomics Building is a shared multi-departmental building administered by IIGB staff. Doors automatically open at 7:30am and close at 5:00pm, Monday through Friday. Users needing access outside normal business hours can get a key fob by completing this form, obtaining the appropriate signatures, and returning it to **Room 1206 in the Genomics Building**. Please note that it will take 24 business hours to activate your FOB upon submitting this form.

Issuance of Key Fobs:

Every year, during the second and third week of September, a new authorization form must be completed and authorized by the principal investigator/supervisor and returned to **Room 1206 in the Genomics Building**. This is necessary for security purposes. Users must not borrow or lend fobs to each other since access information in Keen Hall is used to evaluate security measures and confirm billing accuracy. Please notify IIGB staff (x27177) immediately if fobs are misplaced or lost. Fobs that are not returned for renewal will be inactivated and charged at cost to the principal investigator's FAU provided on the form. Fobs can also be revoked (inactivated) at any time for improper use of the space.

Authorization of Key Fobs:

Signature approval from the principal investigator/supervisor is required on all forms. In addition to the principal investigator, fobs issued for the first time to Keen Hall after-hour users require authorization by the core facility manager(s). Access renewals to Keen Hall do not require core manager(s) approval. Core facility manager contact information is indicated below.

- Group B [Microscopy Core] – Manager: David Carter, Rm 2025 Keen Hall**
- Group D [Proteomics Core] – Manager: Songqin Pan, Rm 1019 Keen Hall**
- Group E [Genomics Core] – Manager: Glenn Hicks, Rm 2024 Keen Hall or 2016 Keen Hall**
- Group F [Chemical Screening] – Manager: Glenn Hicks, Rm 2024 Keen Hall**

Authorization is limited to the rooms indicated on the Fob Authorization Form; requests to access another instrumentation core in Keen Hall will require additional authorization by the principal investigator and corresponding core facility manager(s). An FAU must be provided by the principal investigator on the Fob Authorization Form in the event fobs are not returned annually or when an employee's appointment is terminated. Should an FAU no longer be valid, the IIGB staff (genomics@ucr.edu or x27177) must be notified immediately and another FAU provided.

Genomics Building PI Certification Only:

- I certify that the employee listed on this form has received Laboratory Safety Orientation (fundamentals), laboratory-specific training, and other courses as determined by a training needs assessment.*
*Available online at <http://ehs.ucr.edu/training>
- I certify that the employee listed on this form has reviewed the Genomics Building Emergency Plan dated February 2017. <http://genomics.ucr.edu/intranet/documents/2017genomicsbuildingemergencyplan.pdf>
